31 October 2011

Dr Maciej J. Nalecz,
Director, Executive Secretary, International Basic Sciences Program (IBSP)
Secretary, SESAME Council
UNESCO HQ, Natural Sciences Sector
1, rue Miollis, room B.3.29/30
75015 Paris

Dear Dr Nalecz

SESAME

The IUPAC Executive Committee has endorsed the following statement in strong support of the SESAME initiative and program.

Statement:

The International Union of Pure and Applied Chemistry (IUPAC) enthusiastically supports the establishment and operation of the UNESCO International Centre for Research and Advanced Technology on Synchrotron Light for Experimental Science and Applications in the Middle East (SESAME). Not only is the science of fundamental importance, but the location of this world class facility will provide an enormous boost to the scientific standing of the region and will also provide a stimulus for local and regional industry. Furthermore, IUPAC urges its relevant National Adhering Organisations to become involved with SESAME and to support its collaborative objectives.

Kindest regards
