## Bright Expectations

Insights from scientists working at 4th generation light sources

## Early Career Virtual Panel Session

### Panel members

**Monika Bjelcic**

PhD Student at the  
MicroMAX beamline at  
MAX IV, Sweden

**Georgi Dakovski**

Lead Scientist at Linac  
Coherent Light Source,  
SLAC, USA

**Graziela C. Sedenho**

Postdoctoral researcher at  
University of Sao Paulo & user  
at Sirius, Brazil

**Marta Mirolo**

Postdoctoral fellow, ID31 -  
Buried Interface Beamline,  
ESRF, France

On International Day of Light, we bring together scientists from 4th generation light sources to share their career paths and insights into research that is taking place at these world class facilities. Our interactive panel session aims to inspire early career STEM professionals and will include short presentations, discussion and questions from the audience.

We hope you can join us!

### Welcome

**Sandra Ribeiro**

Chair of Lightsources.org &  
Communications Advisor  
Canadian Light Source, Canada

### Moderator

**Ashley White**

Director of Communications  
Interim Deputy for Strategy  
Advanced Light Source, LBNL, USA

**16 May 2023**  
**09:00 PDT/18:00 CEST**  
**(1 hour session)**

International  
Day of Light

16 May
